TRAIN

The train is actually the faster way to reach Venice. The "PORTA OVEST" station is indeed only 400m far from our campsite.

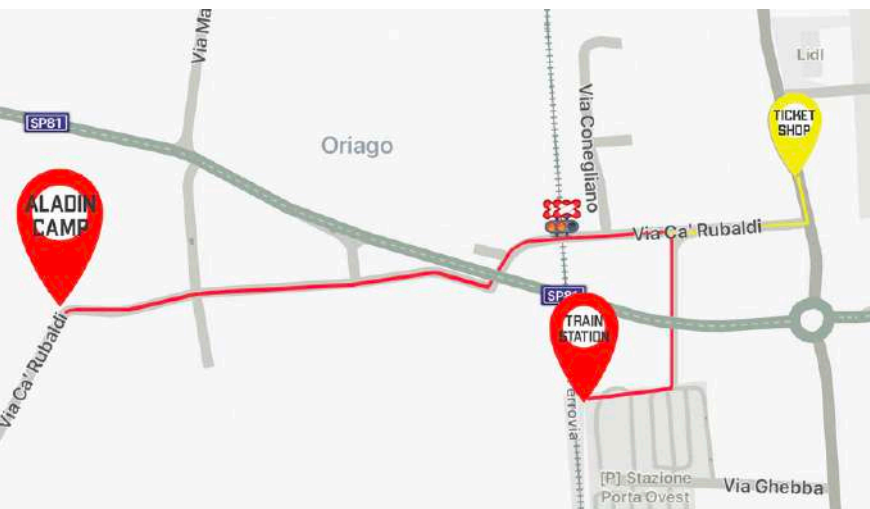

Scanning the QR code below (just scan it with the camera), you can find all the tools you need to take the train with the updated timetables and the position of the shop where you can buy the tickets (see also the dedicated map below).

SCAN ME FOR TRAIN INFO

In the map below you can find the path to reach the PORTA OVEST station (don't follow GoogleMaps!) and the shop for the tickets (yellow line):

Station Path: starting from our position proceed straight and, once you past the underpass and the rail crossing, proceed about 100m and turn right in the pedestrian street (you will recognize it because you see a tunnel!).

BUS

The BUS Actv service gives many possibilities to reach Venice from our location.

What we suggest you is to reach the “ORIAGO ROMAGNA” bus stop: to reach it follow the path indicated in the map behind – not the one indicated by GoogleMaps! It is located at Oriago di Mira (VE) in the Via Padana street in front of Via Romagna and beside the Brenta river. The Bus line we suggest you to take is the - 53E - from ORIAGO ROMAGNA to VENEZIA (scan the QR-code for the timetables!).

There are two main options to buy tickets:

- AVM Official App (scan the QR-code to download it);
- authorized dealers (scan the QR code to find those close to the route!).

SCAN ME FOR BUS INFO

We suggest you to download the AVM official app because you can buy the tickets at any time you like, in few seconds!

With the app moreover, you can choose to buy different types of plan trip, therefore you will choose the best option for you: for examples, if you wish to visit the islands like Murano and Burano we suggest you to buy a daily (or more) ticket to take bus and vaporetto (water bus) all day long at discounted price!

If you want to find how to best use the app, just follow the instructions you can find in the QR-code or by following the paper version that you can find inside our building.
